

TRACK RESULTS

This is the final listing for **TRACK RESULTS** for the 2009 Season. We have gone through the listings and our scouting reports to indicate athletes that placed in last year's finals. We wanted to indicate all of those individuals that qualified and did not score last year in the listings but we received several paper's listings late to go through and indicate all of the qualifiers from last year. Those that placed have their '08 place indicated in front of their name. If they scored previously to '08 there is a second number in front. Individuals that qualified for the '08 finals have that indicated with "q" while additional qualifiers have "@". Grades are indicated where they are known those athletes that scored in a different division last year have that indicated. We also indicated at the beginning of each event the number of scorers that are returning from the 2008 Finals. Non-scoring athletes with a **bold type** for their school were regional winners last year. Again we did not have time to indicate this for all of the athletes listed.

When an individual that scored last year is not in what part of our listing we would show, we have skipped some athletes so we can still list those placers that are down on our listing. This is probably a double issue as we list almost twice the normal number of athletes in previous listings.

It is interesting to see how close the athletes are in performance. We have a listing of around 50 in each event for each division. Weather, facilities, timers are just some of the reasons that question any listing. There are a few individuals that have clearly established themselves as the class of an event. There are many more that it just depends on the day and who is ready and who does it! The listings give the athletes an indication of the performances that are being run around the state and what returning scorers are doing. The beauty of this sport is the head to head competition.

There are several teams that have potential to put together some real quality relays. We have several schools that have 3 or 4 athletes listed a single event's list. If they have one more, or elect to put everybody together in the relay..... That is the hard thing about trying to predict teams because of how individual are used during the season and the relay meets. Of course the other big thing is who gets out of the regional!

We received listings from Bay City, Caro, Flint, Grand Rapids, Jackson, Macomb County, Mt. Pleasant, Muskegon, Oakland County and Pt. Huron, Traverse City and Saginaw. Unfortunately the St. Joseph Herald-Paladium and the AA Press did not do their listings this year. The Observerland papers were supposed to do their listing but I have not seen one as yet. I know I will contact the publisher of the Herald-Paladium about dropping the listing. I hope you will do the same for papers in your area that no longer do a listing. We appreciate all of you that have sent performances in.

I miscalculated in the pages, there is nothing on the back of page 17.

ALL OF THE POLE VAULT IS ON THE INSIDE OF THE BACK PAGE.

If you are hosting a regional please see that I get your results. Please send a copy that has the athlete's grades. Please remind regional managers to email or fax their results.
