2nd Leg - USA

USA
"It's always a pleasure to come back to Penn Relays. I feel like if I don't run Penn Relays, it's an incomplete season for me. To come back here knowing the rich culture of Penn Relays and seeing all the different faces, it's always a good thing." "Coming here and running against Jamaicans is not just a team versus team thing, it's a country versus country kind of thing. It's always exciting, especially early in the beginning of the season. It gets the season pumped up." "It's gonna be a little chilly, so I hope no one gets injured because we want to have a great season moving forward and I'm always happy to go up against all the countries." "Of course I want to have a great victory with my teammates, have a clear sailing win by 50 meters if possible, but if it's a nail biter, it's not gonna be just for us, it's gonna be for the fans. They want to see a great race." "I don't go and start my year off and say 'I want to beat Usain (Bolt), or I want to go beat Yohan (Blake), or I want to beat anyone else in the world. I want to beat Justin, I want to beat Justin of 2014. 2014 Justin did a great job I think, so 2015 Justin has to step up his game to not only be dominate but to get on the podium again."

Justin Gatling

2nd Leg - USA

Team USA 2nd leg

"I feel great coming off the 4x1! This is the first year team USA focused on building the team and its synergy with stick exchanges and everything. I'm comfortable with my team and I think when we go to the world relays and world champions we will represent!"

3rd Leg - USA

"It's definitely a different feeling coming from the juniors side of things, it's more intensified here (at the professional level). It's just different being around different people I look up to here, running with them, training with them. It's definitely a good experience for myself." "It's definitely different, I remember back at Florida relays some of my friends who were seniors last year are now at the college level. So seeing them in there college uniform and myself in my Nike uniform, it's different because I kind of skipped that whole level."

Kaylin Whitney

Athlete - USA

Anchor leg of winning women's 4x 100

"Marshevet (Hooker) was coming in and she was coming hot, so I knew had to take it out fast.

As soon as she hit the mark, I went. I kept the pace up, and as soon as she called stick, I

threw the hand back. She pushed my hand and it was time to go. I felt like I was at the World

finals."

Marcus O'Sullivan

Coach - Villanova University
College Men's 4 x Mile Championship of America
"I'm thrilled. This is a very special day for me because this is one of the races that I thought we would have a tremendous challenge with." "The 4:13 doesn't tell the whole story. To me, the 4:02, 4:01, 4:01, that was a string of miles that, you want to break 16 minutes and this was a very breakable 16 minutes today. That's the most impressive part of the relay, for me. To see those guys, one after the other, put it together on one particular day. The last leg was basically full of theater; it was full of exciting moments, and their boing and cheering and hooplah and everything. That's what it's all about, to me. It's the excitement of getting a crowd, it's entertainment, and you don't know what the exciting finish is going to be. I just happy, here today, that it fell in our favor, as opposed to yesterday, it didn't fall in our favor." "So much went on out there. Everyone has got there hat in the ring, and when you look at the race and everyone has got a vested interest, to me, that's what makes it so exciting. When the race opened up and the sprint was on, it's just a culmination of this exciting moment where you don't know what's going to happen, and with 150 to go you still don't know what's going to happen."

Jordan Williamsz

Anchor - Villanova University
College Men's 4 x Mile Championship of America
"The boys set it up so perfectly. I couldn't ask for a better spot, right behind Ches. He put the brakes on, and the longer that it stayed slow like that, the better it is for me. I'm an 800 guy, I was an 800 guy growing up, so I was trying to stay relaxed. I just tried to stay as patient as I could, even when Cheserek went with 250 to go, that's what I did yesterday. I was running on emotion. It's kind of like a home crowd for us, so I just dug deep." "It feels really good. Honestly, with 200 to go, I thought I had messed it up. When it went that slow, I was never going to go to the front." "Last night, I said to the boys, I think I can get him. If the race goes just right, I can get him. I guess it went just right for us. If they think I can do it, then they're going to get me there. You don't beat that guy easily. It's a tough effort." "I've seen what he's done, I tried to give it back to him a little bit." "I'm going to get a lot of credit for this, but it's mostly these guys, right here. It's a team effort, it's not just a one man thing. All of these guys are my best mates. I'm so proud of them all, to have put me in the position that they did."

Anchor of Team USA 4x200

On her leg of the race: We had a iffy hand off, so once I got the baton I was like, we gotta go, and kept running past the finish line. Honestly, I didn't even know who won, I was so overwhelmed. On Winning at Penn Relays: It feels great. Being able to represent The USA at such a big meet and having the crowd cheering you on as your running is great for me. I've been at this meet several times, and every time has always been successful, so it's always great to be at Penn Relays. On how this race affects her moving forward: I'm really excited for the rest of the season. I felt really strong, I can't wait to see what I do next when I open up with a 200. I've been more focused than ever. It's been a rough road for me the last 3 years, so I'm happy to get back out there

"I've been coming here since I went to school in Arkansas in 2004. It's definitely fun to come and have a team-oriented event rather than being an individual. I definitely love coming here and being a part of Team USA and taking on the world." "I'm treating this year like I did when I had some of my best years where you use Texas Relays, Florida Relays, and Penn Relays as a tool in order to sharpen your skills before you actually open an individual event." "I definitely want to take this year very serious seeing how Beijing didn't go very well for me back in '08 (Olympic Games). I want to go back and redeem myself." (At The World Championship in Beijing)

Wallace Spearmon

Anchor - USA

Anchor of the winning 4x200

On Winning Penn Relays: I've been trying to get a 4x2 together since 2006. I actually got a piece of paper and made everyone write their name down of who would actually compete. This is the first time I've been back since 2012, I forgot how exciting it was. When they (the 4x100) were running, my coach had to come grab me and tell me to sit down before I get hurt. I found my self running along the inside of the track, jumping up and down. For me when I come here, it's that gap, that bridge between the beginning of the season and when you're out there on your own. I definitely love the environment, the fans are great. A lot of Jamaicans come out and support their country. I like them because they support good competition as well. On the

changes in his career: I had a lot of success early, it was a blessing and a curse. I learned what everyone does this for and what it takes to be great. At the same time I took it for granted, I didn't train as hard as I needed to, I had a lot of natural talent. In 2008 I got injured, you have one injury, you're not taking care of yourself properly and everything else doesn't go the same direction. I had a meniscus, then I came back in 2009 and my achilles plagued me for about 4 or 5 years. 2013 my foot was bothering me, and then last year something was wrong, couldn't tell what it was. I went to a lot of doctors, I came here and I had my rectus abdominis, abductor and my groin came off my pelvic bone and I didn't know it when I was trying to run, so I had the surgery. Right now I'm just really focused on off the track. I've always taken care of things on the track, your diet, your rehab, your weight, and everything else. If I had one thing to tell young athletes it would be, to take care of the little things and it will help you have a longer career. I'm definitely a lot more focused than I've ever been. On how this race affects him moving forward: Looking toward the future if I can keep getting better and better without taking any steps backwards, this year we'll see what happens and next year hopefully I'll be able to compete.

Well it was OK. We have a great team and going into the final we also had the fastest time. So I was feeling very good about the team and the race... I was not quite sure if we had the lead when I got the baton because I was so focused on my team. I just went through there, and knew my team did their best. So, I'm really happy.

Shimayra Williams

Winner of race

I wasn't sure if we were in the lead when I handed off the baton because it was a big stagger. I was pushing for my best performance at the end of the day and it was good enough.... I'm not really happy with my performance, but I'm satisfied. ... Training is going well. Its kinda hard, but at the end of the day hard work pays off.

First race since 2013. Second place finish
"It's awesome to be back here at the Penn Relays. I haven't raced since August of 2013, so I've had a long time off, and this is how I wanted to start my comeback. This (loss) is a stake in the ground. It's not where I wanted it to be, but it can only go up from here."

Sheila Reed

Athlete - Nike/Canada
Racing against former Villanova teammate, Emily Lipari
"I had her in my peripherals the whole time. I know Emily (Lipari) has a great kick. It really felt like college, warming up with Emily and my other teammate Nicky (Akande). It felt like the old days. The weirdest thing was that they were both wearing Adidas. I'm still sporting Nike."

Sheila Reid

Athlete - Nike/Canada
Recovery and training before the race
"There has been a whole host of injuries. As a result of being on my own as a professional, I've had tendonitis followed by three stress fractures. I've now moved out to Oregon, and I'm working with a new coach. I'm healthy, and this race could've been much worse. This isn't the end of the world, but I'm by no means satisfied."

Emily Lipari

Athlete - NYAC/Oiselle
ODW Mile Run
"This is like homeland to me so I'm really pumped up to be here. It is different because I'm not in college anymore so I'm not sharp right now. I'm just getting out there and getting the feel of Penn Relays again. It's weird being competitors with Sheila and not teammates. I came here, I'm wearing adidas she's wearing nike and we're like this is kind of strange. But it's really nice, I haven't seen Sheila since she moved to Oregon. It's ben fun running beside her. It's just really exciting to be back here, I love this place."

I definitely was ready. I just had to come out here with a good mindset, despite the weather or anything else... I cam out strong from the blocks. I kinda felt bad cause I hit a hurdle, but I just didn't panic or anything and stayed tunnel vision all the way down, and completed the race....I can't really see if I'm leading, but it always pushes me to run faster if I see anyone beside me or in front...That was my season's best, but I'm not sure.... I'm a senior, graduating this year.... From Decatur Georgia..... I'm really excited about the nationals. Its always be there in the scene with other great athletes. I just can't wait... Last one, you know, you gotta do your thing.

It was a great day. Honestly, first off I just want to thank God, my family and my coaches. Without them I wouldn't even be able to be here. You know it took me a little time, transferring and playing football at TCU. It took me a little while to get my weight down. But coach stuck with me, and I told him when we came out here that I was going to do it... In the fall I play football so I never get to really train. But I got the best coach in the world in the hurdles, Dennis Shaver...I knew I was going to win coming out of the blocks. I'm saying it in a humble way, but I told myself that it was good I wasn't in the middle, cause everyone's so big. We're all used to running against each other, and I know how tight the lanes feel. I almost took a mean fall yesterday. So, it was good to be on the outside, slide my blocks over, so I wouldn't hit anybody. I work my start every day, and do my 100s, and I just took my times down day by day.... I didn't see anybody. I was grinding. I had a problem with that before, looking at the side. But I said to myself that today I wasn't looking at anybody. I was just grinding.... I screamed when I came across the line. I knew I had won. I saw somebody trip at the last hurdle. I think he and I were neck and neck. I don't know. But I think he tripped and I just kept going and digging. Not by best. 13.68 last year. Ran 67 last week which was my second fastest.... But its a blessing to be here. We thank God every year for being here.

Masters Men's 100m dash 75 and Older

"The atmosphere here is fantastic. The crowd is appreciative of the everyone that runs and have run, it's a really fantastic opportunity." "Masters are members of the United States Track and Field as well. I think that Penn Relays does a lot to help the US Masters track because it gets a lot of more people involved. Where previously at 30 years old when you retire that's it. So I think it's a good idea." "I pulled a hamstring a couple weeks ago so I was a little concerned, it sort of tightened up a little bit but that's what you're expecting when you get older."

Elizabeth Leander (85)

Athlete - unattached

Masters 100m dash 75 and Older

"It (the atmosphere) was very exciting because I am a Philly girl and I love this venue and I have been down here quite often. To be in the center of it was very exciting to me." "My family are here, many of them, and my granddaughter is my coach and she's been wonderful I couldn't have done it without her." "I am a singer actually, but I work out at the gym and try to stay healthy. I think that my family have encouraged me to do this so I didn't want to let them down." "I want to encourage in my age group, and not necessarily now but earlier in life to stay fit and healthy and certainly to move around. You can just sit around and watch television."

Reed Connor

Athlete - NJ/NYTC

Connor won the ODM Mile Run.

"It felt great. This is my first Penn Relays. Yeah, I might never come back just so I can be one for one." "It's a special atmosphere, and when there's this many people watching, it's what every track athlete wants, and you want to give them a show. You got to have a kick here; if you don't have a kick here you're in the wrong sport. This should really pump you up and that's what happened to me out there today." "It was our guys up there and there was other people. It came down to a kick, it was pretty slow and I thought I almost waited too long. I heard the finish line is a little bit closer, and I was like 'Ahh', I probably didn't leave enough room. Then all of sudden I cross and I was like, 'hey I just might have crossed first', and then I looked over, I was kind of looking at the jumbotron waiting for it, and it was like 'Connor wins' and I was like well there you go. So I got a little lucky there, but it was definitely a fun experience."

Gina Procaccio

Coach - Villanova

Coach of Villanova team. Won CW 4X800 COA.

"Once again, you know it's a four person job. There were some really good teams out there, but they all had a job to do and they did it tremendously. You know Kelsey [Margey] isn't having the best season, I know she was really feeling the heat going into this meet, but we just talked about the magic of Penn. And she knows nothing more than brining in the lead in the four by eights. So just hoping that from memory she would get it done, and she did. And that just kind of set it up. Once that happened there's no way these other three weren't going to bring it home."

Angel Piccirillo

Anchor - Villanova

Anchor on Villanova CW 4X800 COA winning team.

"I just saw all my teammates working hard. I saw Kelsey come in with a lead and I was like 'okay we're set up to do well'. And it was a super competitive race, but I just knew I wanted to bring it home. We wanted this four by eight really bad, and this is my first time anchoring at Penn."

Alan Drosky

Coach - Georgia Tech

CM 4x800 COA

"It was exciting, we've been close, we've been in the hunt the last three years and it was really exciting. I'm proud of the guys." "It's been a goal of ours for number of years to come here and get the big wheel." "I have confidence in all four of those guys. We had a redshirt freshman (Andres Littig) that we lead off and we were confident that he would put us in a good position. Then we had three seniors after him and basically just challenged them. If they wanted to get the championship, it was right there for them for them and they kept Brandon (Lasater) close enough and we felt if he was close enough, we've got our shot." "It was a huge disappointment last year (6th in the event in 2014) because we had an outstanding team. Three of the same guys we're on the team and we had a lot of hope to win last year. We're in great position in the first exchange and our outgoing running got tripped and went down and now, we're out of the race. It was a big disappointment. Some of the guys took it a little hard but we try to put it behind us and move on to the next meet and to the next season. We didn't really think about it a whole lot. I just know that today, I was like okay, get through the hand off because I was confident in the guys that if nothing happened, we would be in the fight at the end."

"I'm just so excited. I love coming to this meet ever since the first time here and I'm just glad my team and I could do this. I'm just really really happy." "It's probably my favorite meet to come to."

Meb Keflezighi

Other - Boston Marathon

2014 Winner of the Boston Marathon

On the importance of The Penn Relays: The Penn Relays is one of the biggest meets nationally and internationally for sure. I was here 20 years ago running my first 10 k when I was at UCLA, so I wanted to come back and fit it into my schedule to be here on behalf of Elliptigo which is one of my sponsors, and also with the book. It's a great environment to be in, and meeting the young people here it's kinda cool. On his future racing plans: I finished 8th in the Boston Marathon in 2015. Unfortunately I couldn't pull off the victory. I had some tough times. I had trouble the last 3 miles, but I ran my best. It was great to finish with Hillary, and we crossed the line together. I'm getting ready for a full marathon, and then hopefully the trials in February I can secure a top 3 spot to go to the Rio Olympics in Brazil. On potentially running at The Penn Relays again: The track has been my past discipline, but you never know, over 40 or something. I always enjoyed the DMR or relays. I didn't do it here but I did the DMR at UCLA. Maybe one day, but I do enjoy the meet here. It's incredible. They bring the best of the best from high school. You always have Jamaica and The United States, the rivalry is always interesting. It's good to be back here. On his favorite Races at the Relays: I always look forward to the 4x4 relays, and I told my brother and manager and the guys helping out here that when I'm watching the meet I want to have solitude. I want to enjoy track and field because it's beautiful and pure, and I want to be able to do that. On his book "Meb for Mortals": This is "Meb for Mortals". It's about how to run, think and what to eat, because all those things have people asking questions. It has a lot of pictures to demonstrate all the stretches. I have had longevity and consistency in my career, over 25 years I've been running. I'm telling the people what I have learned, and it's important to share with the rest of the people.
